

Filipino Carers

Want to remain independent, but your home is becoming more difficult to manage and you do not want to become a burden. We can help.

**“Caring is our ultimate goal
as a profession.
It is not just an infill”**

Recruitment & Staffing Agency

Care services started with group of Filipino friends providing domiciliary care around Richmond area. We started offering domiciliary care locally in Richmond area where ads for care services is posted in a local pharmacy. We saw the high demand in care services and shift providing domiciliary care within and around London area.

Besides domiciliary care we also provide services in physio therapy. The founder of company is a physio therapist, nurse. We started providing physio therapy locally.

The company's target is to provide domiciliary care nationwide, we have established connection with our counterpart in Birmingham, Manchester, Liverpool and Scotland to cater care requirements in those areas.

Care services are broad, as the company grows so as our care services. A team of child expert joined the company to provide childcare for children with special care needs.

Filipino Carers is defined and classified as an 'introductory agency'. This is in line with CQC guidance. It specifically provides an introduction to help those in need of home care to find suitable assistance.

Filipino Carers find and introduce Personal Care Assistants (PCA's or Carers) to people who want to stay in their own home but who are finding this challenging. Our aim is to enable you to enjoy your independence for as long as possible. Your needs may be as simple as some support around the house or as complex as needing assistance with your activities of daily living including personal care.

We always seek and select the right kind of PCA for you. Filipino Carers are selected for their experience of personal care and expertise as well as their ability to bring the unique blend of care and professionalism required. Based upon your specification we will find and introduce suitable people for you to select from.

Having a PCA introduced by Filipino Carers means that you remain fully in control of your life.

A unique blend of caring and professionalism

"Compared to previous carers Lily has been the most professional, able and caring by „a country mile . If we had any other choice with my Aunt, we would remain with Lily as her P.A. To illustrate my thoughts, I have asked Lily to visit my Aunt in her new home to help with Dom s transition and am offering Lily the option to stay in Dom s house, alone, until the sale completes."

R. Bach (Staines on Thames)

We aim to maintain the integrity of our service by asking all the PCA's we introduce to subscribe to several important principals.

They are:

Treat all those you care for as though they were your own family.

Be adaptable, professional and reliable at all times.

Communicate clearly in English so you know and understand your client's wishes and needs.

Work hard, be patient and honest.

Always take pleasure in providing help to those you care for.

Maintain the dignity of those you are helping and ensure they feel safe in their own home.

Make it possible for them to enjoy their community to the full and show they are never a burden.

Always aim to make significant improvements to the well being of all those you care for.

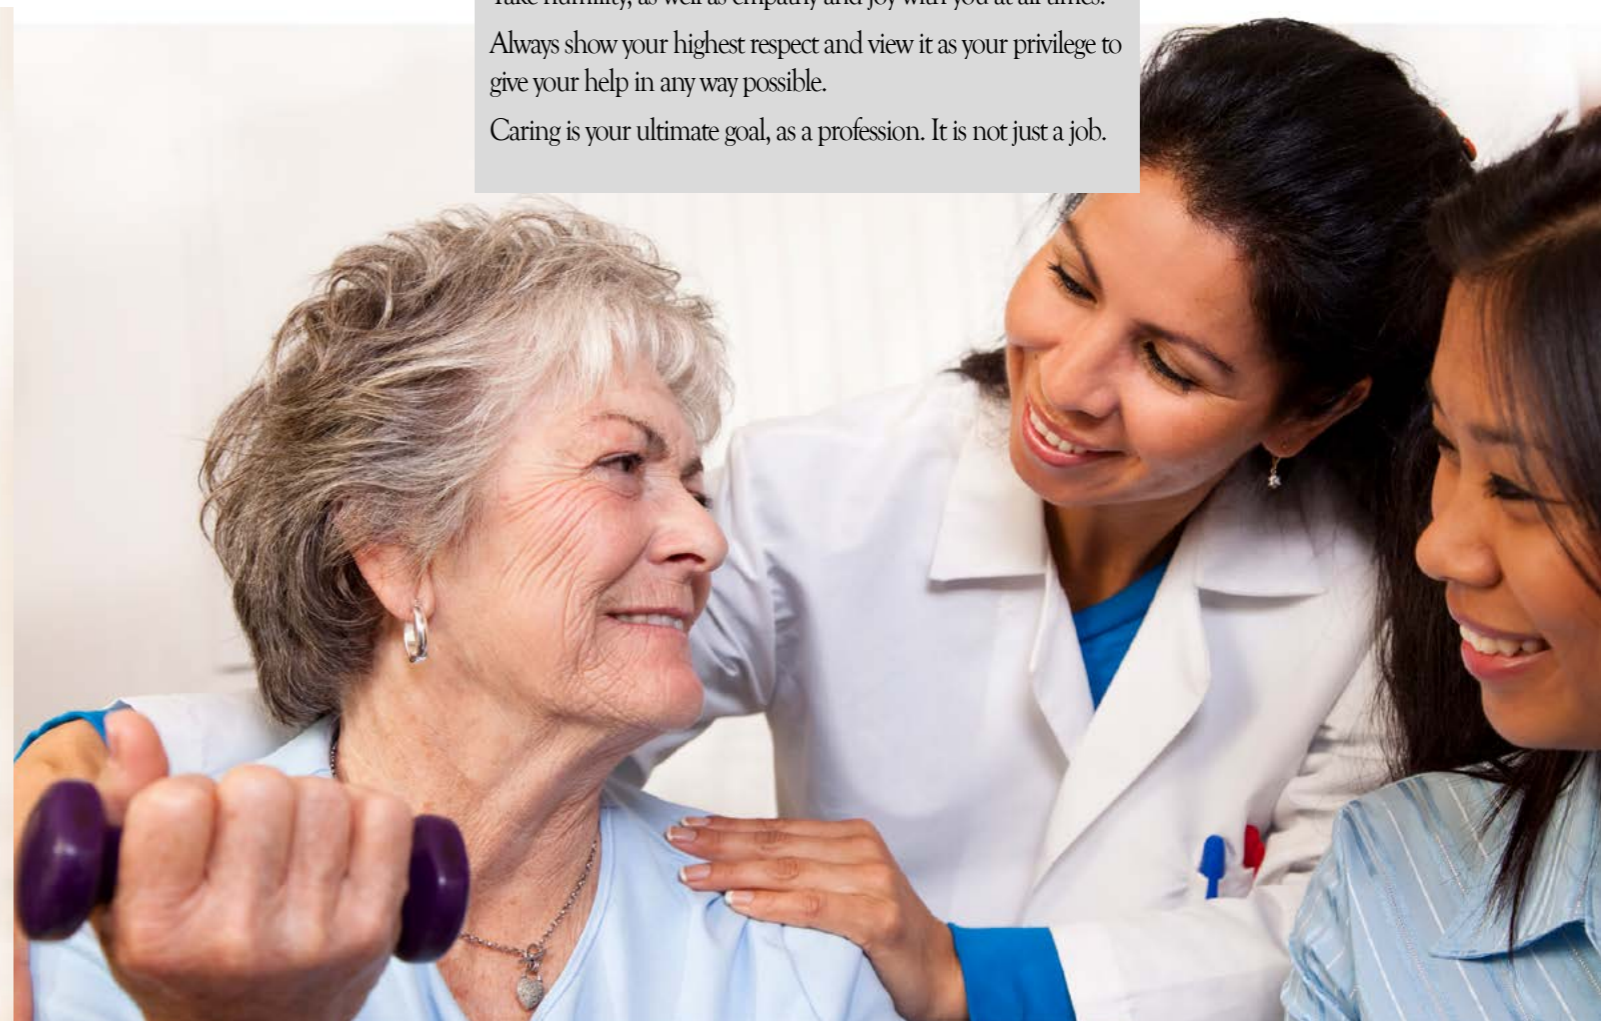

Take humility, as well as empathy and joy with you at all times.

Always show your highest respect and view it as your privilege to give your help in any way possible.

Caring is your ultimate goal, as a profession. It is not just a job.

"Caroline's attitude to her working position is way past just completion of the task. Her eye for detail, going that extra mile and housekeeping and care services is just incredible, and is the highest levels of professionalism at all times and the best I have experienced. She will be sadly missed here by all around her, as her short period of time here has impacted our lifestyle in a huge positive way."

Anthony (Reading)
